

# Amazing Grace

All:       Amazing grace, how sweet the sound  
              That saved a wretch like me;  
              I once was lost, but now I'm found  
              Was blind but now I see.

All:       'Twas grace that taught my heart to fear  
              And grace my fears relieved.  
              How precious did that grace appear  
              The hour I first believed.

All:       Through many dangers, toils, and snares  
              I have already come;  
              'Tis grace that brought me safe thus far  
              And grace will lead me home.

All:       When we've been here ten thousand years  
              Bright, shining as the sun,  
              We've no less days to sing God's praise  
              Than when we first begun.

## **Last verse a cappella**

All:       Amazing grace, how sweet the sound  
              That saved a wretch like me;  
              I once was lost, but now I'm found  
              Was blind but now I see —

Was blind — but now — I — see.
