

# Bye Bye Blackbird

All:        Pack up all your care and woe,  
              Here I go, singing low  
              Bye-Bye Black Bird.

All:        Where somebody waits for me,  
              Sugar's sweet, so is she  
              Bye-Bye Black Bird.

All:        No one here can love and understand me.  
              Oh what hard-luck stories they all hand me.

All:        Make my bed and light the light,  
              I'll arrive late tonight  
              Black Bird, Bye-Bye.

**Repeat whole song**
